

c programming assignment 1

Mandanka Prince

August 2025

1 9. Convert Rs. into dollars.

```
#include <stdio.h>
int main() {
    float rupees, dollars;
    printf("Enter rupees: ");
    scanf("%f", &rupees);
    dollars = rupees / 48;
    printf("%.2f rupees = %.2f dollars\n", rupees, dollars);
    return 0;
}
```

The screenshot shows a C program execution environment. On the left, the code is displayed in a text editor with line numbers 1 through 10. The code is as follows:

```
1 #include <stdio.h>
2 int main() {
3     float rupees, dollars;
4     printf("Enter rupees: ");
5     scanf("%f", &rupees);
6     dollars = rupees / 48;
7     printf("%.2f rupees = %.2f dollars\n", rupees, dollars);
8     return 0;
9 }
10
```

On the right, the output is displayed in a text area. The output shows the program's execution results:

```
Enter rupees: 96
96.00 rupees = 2.00 dollars

=== Code Execution Successful ===
```
