

c programming assignment 1

Mandanka Prince

August 2025

1 8. Convert dollars into Rs.

```
#include <stdio.h>
int main() {
    float dollars, rupees;
    printf("Enter dollars: ");
    scanf("%f", &dollars);
    rupees = dollars * 48;
    printf("%.2f dollars = %.2f rupees\n", dollars, rupees);
    return 0;
}
```

The screenshot shows a code editor with the following C code in `main.c`:

```
1 #include <stdio.h>
2 int main() {
3     float dollars, rupees;
4     printf("Enter dollars: ");
5     scanf("%f", &dollars);
6     rupees = dollars * 48;
7     printf("%.2f dollars = %.2f rupees\n", dollars, rupees);
8     return 0;
9 }
10
```

The `Run` button is highlighted. The `Output` pane on the right shows the execution results:

```
Enter dollars: 45
45.00 dollars = 2160.00 rupees

=== Code Execution Successful ===
```
